## Individual & Small Group Preferred Drug List

## How to use the Preferred Drug List

The Preferred Drug List (PDL) (also known as a Formulary) is a list of prescription drugs covered under your plan. This contains the covered drugs, doses, and dosage forms. This list is not a complete list and additional prescription drugs may be covered. *Please note that the PDL is subject to change as new prescription drugs become available, drug categories are reviewed, and as we strive to provide the most effective and valuable therapies available for our members.*

Your pharmacy benefit has four prescription drug tiers. The tier is identified on the Preferred Drug List below. These tiers determine your out-of-pocket responsibility and correspond to the copays and/or coinsurance shown on your benefit summary. In most cases, the prescription drugs on the lower tiers will cost less.

- Tier 1: Preferred Generics
- Tier 2: Non-Preferred Generics/Preferred Brands
- Tier 3: Non-Preferred Brands
- Tier 4: Specialty (Most specialty drugs require PA and must be filled at the Plan's designated Specialty Pharmacy)
- Tier 5: Preventive (see PRESCRIPTION DRUGS WITH ENHANCED BENEFITS section below)

Please note that prescription drugs covered under the Preventive Drug List\* and the Value Preventive Drug List\*\* have no cost to members and are defined below under PRESCRIPTION DRUGS WITH ENHANCED BENEFITS.

If you have any questions about the PDL or your pharmacy benefits please, contact Pharmacy Customer Service at the number listed on the back of your ID Card. Pharmacy Customer Service is available 24 hours/7 days a week/365 days a year. You can also view additional information by logging into the pharmacy member portal. If you need assistance in registering for the portal, please contact Pharmacy Customer Service. The pharmacy member portal provides information such as how to find a pharmacy; look up prescription drug information like benefit tier, limits, and drug interactions; shop for best price of a prescription drug at different pharmacies; check the status of a prescription; print your prescription drug fill history; and how to set up mail order.

### HOW PRESCRIPTION DRUGS ARE CHOSEN FOR THE PDL

Prescription drugs approved by the United States (U.S.) Food and Drug Administration (FDA) are reviewed and considered for the PDL by the Pharmacy & Therapeutics (P&T) Committee utilizing the following criteria:

- a) The prescription drug is effective and medically necessary for the treatment, maintenance, and/or prevention of a specific medical condition
- b) The PDL does not have other alternatives or similar prescription drugs that could be used in its place
- c) The prescription drug shows a positive therapeutic outcome
- d) The prescription drug shows safety for medical use

As the FDA approves new prescription drugs, they are reviewed within 180 days against similar drugs available on the PDL before being considered for inclusion. New prescription drugs with an FDA designation of 1P (FDA priority review – potential therapeutic gain) will automatically be reviewed for consideration for the Preferred Drug List. New prescription drugs with an FDA designation of 1S (FDA standard review – no therapeutic gain) may not be reviewed for consideration until a provider/member requests or the next therapeutic class review is done.

In addition, therapeutic classes are reviewed on a regular basis to ensure the Preferred Drug List includes the most effective and valuable prescription drugs.

Members will receive notices related to drug formulary changes at the point of sale when filling a prescription that is impacted by modifications to the PDL. Network pharmacies are required to inform the member of these messages regarding updates or changes to the program which may impact a member. In addition, members whose prescription drugs have been removed from the PDL or have a negative change such as increased tier or new limits will receive written communication of change.

### PRESCRIPTION DRUGS WITH ENHANCED BENEFITS

#### \*PREVENTIVE DRUG (PREV)

Certain prescription drugs are considered preventive under the Affordable Care Act (ACA). ACA preventive drugs are covered at 100 percent by the Plan (no patient responsibility); although limits may apply. Drugs available under this benefit

are listed as PREV under Limits & Restrictions. For more information about your preventive drug benefits, please contact Pharmacy Customer Service at the number listed on the back of your ID Card.

<b>Preventive Drug Benefits</b>
Aspirin use to prevent cardiovascular disease and colorectal cancer for adults 50 to 59 years with a high cardiovascular risk
Birth control as prescribed by a health care provider for women with reproductive capacity (not including abortifacient drugs). This does not apply to health plans sponsored by certain exempt "religious employers."
PrEP (pre-exposure prophylaxis) HIV prevention medication for HIV-negative adults at high risk for getting HIV
Immunizations — doses, recommended ages, and recommended populations vary
Folic acid supplements for women who may become pregnant
Bowel prep for colorectal cancer screening
Smoking cessation medications
Statin preventive medication for adults 40 to 75 at high risk
Breast cancer risk reduction medications
Fluoride supplements for children without fluoride in their water source

### **\*\*VALUE PREVENTIVE DRUG LIST (VAL)**

Value Preventive Drugs List provides coverage for designated prescription drugs in specific categories even before you meet your deductible or out-of-pocket expenses. Members will not have any cost-share for prescription drugs listed in our value-based preventive drug list. This is in addition to the no-cost share coverage for preventive drugs listed in the Affordable Care Act (ACA) and expands preventive drug coverage. Drugs available under this benefit are listed as VAL under Limits & Restrictions.

## **PRESCRIPTION DRUG LIMITS & REQUIREMENTS**

### **AGE**

Some prescription drugs have a minimum or maximum age limit requirement under the Plan. Only members within those limits are able to fill those prescription drugs.

### **PRIOR AUTHORIZATION (PA)**

To ensure appropriate utilization, some generic and brand prescription drugs and all specialty drugs require Prior Authorization to be eligible for coverage under the member's prescription drug benefit. The P&T Committee establishes the PA criteria. In order for a member to receive coverage for a prescription drug requiring PA, the member or member's provider should contact Pharmacy Customer Service at the number listed on the back of your ID Card. Your provider will be required to complete a PA form and provide clinical documentation to show why this prescription drug is needed for treatment of your disease state or medical condition. A letter of medical necessity is also recommended. Your provider should also include your diagnosis and previous therapies that have failed in the letter. If a PA is not received or if the prescription drug is filled prior to approval, the cost of the prescription drug will be full member responsibility. In addition, PAs cannot be backdated.

### **QUANTITY LIMIT (QL)**

Quantity Limit is a program that ensures members do not receive a prescription for a quantity that exceeds recommended Plan or safety limits. Limits are set because some prescription drugs have the potential to be abused, misused, shared, or have a manufacturer's limit on the recommended maximum dose. Quantity limits are based on FDA approved dosing, current medical practices, evidence-based clinical guidelines, and peer-reviewed medical literature related to a particular prescription drug. Prior Authorization is required for any quantities that exceed Plan limits.

### **STEP THERAPY (ST)**

Step Therapy is a program for prescription drugs that are taken on a regular basis to treat an ongoing medical condition. The program is developed around effectiveness, safety, and value. In ST, the covered prescription drugs are arranged in a series of "steps". The program typically starts with generic prescription drugs as the "first step." These generics are rigorously tested and approved by the FDA and allow you to have safe, effective treatment with prescription drug that is more affordable. More expensive brand-name prescription drugs are usually considered in the "second step". Step Therapy is developed under the guidance and direction of the P&T Committee. They review the most current research on thousands of drugs tested and approved by the FDA for safety and efficacy. The first time you submit a prescription that is not for a first-step drug, your pharmacist will receive a message to tell you that the Plan requires ST. This means if you don't want to pay full price for your prescription drug, your doctor needs to write a new prescription for a "first-step" drug. With ST, if you've already tried and failed the "first-step" drug, can't take the "first-step" drug (because of an allergy, etc.), and/or your

provider can show medical necessity for the second step products, your provider can submit a request for Prior Authorization review.

## **ADDITIONAL POLICIES AND PROCESSES**

### **THERAPEUTIC INTERCHANGE (TI)**

Therapeutic interchange is the practice of replacing, with your physician's approval, a prescription drug originally prescribed with a chemically different but therapeutically equivalent prescription drug. Prescription drugs used in therapeutic interchange programs are expected to produce similar levels of effectiveness and results. Therapeutic interchange programs are based on scientific evidence. These programs are developed under the guidance of the P&T Committee. The program is designed to work along with other tools that medical professionals use to promote safe and effective drug therapy. If therapeutic interchange is required on a prescription drug, your pharmacist will receive a message to request a therapeutic interchange from your provider. If you or your provider feel the interchange is not right for you and you do not want to pay full price for your prescription, your provider can submit a request for Prior Authorization review.

### **BRAND-GENERIC CHARGE (Ancillary Charge)**

A Brand-Generic Charge is applied to your cost if you receive a brand name prescription drug, regardless of reason or medical necessity, if your provider prescribes a brand name drug when a generic is available. A Brand-Generic Charge is the difference between the cost of the generic and the cost of the brand name prescription drug. This penalty is in addition to the regular cost sharing outlined in your benefits summary. The Brand-Generic Charge does not apply towards Deductibles or Out-of-Pocket Maximum.

### **MANDATORY GENERIC**

The Plan mandates generic prescription drugs wherever available. If a brand-name prescription drug is requested when a generic is available, the generic will be available without a Prior Authorization. If brand is still desired, PA will be required, even if not indicated on the PDL below. If brand is approved through the PA process, the Brand-Generic penalty will still be applied.

### **MAIL ORDER**

Mail order is when a 90-day supply of a generic or brand name prescription drug is mailed directly to you through a designated Mail Order Pharmacy. Not all prescription drugs are available through Mail Order. Contact Pharmacy Customer Service at the number listed on the back of your ID card for more information or to get started on the Mail Order program.

### **SPECIALTY PHARMACY**

The Plan requires that all prescription drugs noted as *Specialty* must be filled through the Plan's designated Specialty Pharmacies. These drugs are usually listed on Tier 4, but certain generics of brand name specialty products may be placed in a lower tier but still be considered specialty. In cases where prescription drugs are available only through a limited distribution channel from the manufacturer, these prescription drugs will be directed by the Plan to another designated specialty pharmacy.

### **OFF-LABEL USE OF PRESCRIPTION DRUGS**

The FDA requires that prescription drugs used in the U.S. be safe and effective. The label information of a prescription drug outlines use for "approved" doses and specific conditions or disease states. The use of a prescription drug for a disease state or condition not listed on the label, or in a dose or therapy not listed on the label, is considered to be a "non-approved" or "off-label" use of the prescription drug. Off-label use of a prescription drug is not covered unless it meets the Plan's off-label use policy. A Prior Authorization is required when a prescription drug is used outside of its FDA indication, dosage, or treatment. Coverage will be reviewed under the off-label use policy and subject to the same conditions and limitations as any other prescription drug. Therapies deemed investigational or experimental are not a covered benefit.

### **NON-FORMULARY (not covered) OR EXCEPTION REQUESTS FOR PRESCRIPTION DRUGS**

For prescription drugs that are not covered by the Plan (non-formulary), you or your provider can submit an exception request. Your provider will be required to complete a formulary exception form and provide clinical documentation to show why this prescription drug is needed/required for treatment of your disease state or medical condition. A letter of medical necessity is also recommended. Your provider should also include in his/her letter your diagnosis and previous therapies that have been tried and failed. If an exception request approval is not received or the prescription drug is filled prior to approval, the cost of the prescription drug will be full member responsibility. Contact Pharmacy Customer Service at the number listed on the back of your ID card for more information.

**PAPER CLAIMS FILING LIMITS**

Point-of-sale claims are generally submitted electronically at the time of dispensing. However, there may be mitigating reasons that require a claim to be submitted via a paper claim after being dispensed. The timely filing limit for paper claims submission is within 365 days from the date of service for all original claims. Paper claims will be reimbursed based on what the contractual discount would have been if claim had processed through the system, so member will be responsible for any difference in paid cost.

TIER	DESCRIPTION
1	Preferred Generics
2	Preferred Brands/Non-Preferred Generics
3	Non-Preferred Brands
4	Specialty
5	Preventative

TYPE	DESCRIPTION
QL	Quantity Limit There is a limit on the amount of this drug that is covered per prescription, or within a specific time frame.
PA	Prior Authorization You (or your physician) are required to get prior authorization before you fill your prescription for this drug. Without prior approval, we may not cover this drug.
ST	Step Therapy In some cases, you may be required to first try certain drugs to treat your medical condition before we will cover another drug for that condition.
GL	Gender Limit This prescription drug may only be covered for a single gender.
AL1	Age Limit This prescription drug may only be covered if you meet the minimum or maximum age limit.
MFL	Max Fill Limit There is a limit on the number of times this drug can be refilled.
MDS	Max Days Supply There is a limit on the amount of this drug that is covered.
S	Specialty Drug Specialty drugs are high-cost drugs used to treat complex or rare conditions, such as multiple sclerosis, rheumatoid arthritis, hepatitis C, and hemophilia.
PREV	Preventative Certain medications are considered preventive under the Affordable Care Act (ACA). ACA preventive drugs are covered at 100 percent (no patient responsibility), although limits may apply. For more information about your preventive drug benefits, please contact Pharmacy Customer Service at the number listed on the back of your ID Card.

VAL

## Value Preventive List

Value Preventive Drugs List provides coverage for designated prescription drugs in specific categories even before you meet your deductible or out-of-pocket expenses. Members will not have any cost-share for prescription drugs listed in our value-based preventive drug list. This is in addition to the no-cost share coverage for preventive drugs listed in the Affordable Care Act (ACA) and expands preventive drug coverage.

---
